

Mid-Atlantic Christian University Academic Affairs Policy 7

SUBJECT: Credit by Examination

DATE: August 4, 1994

REVISED: 7/1/11, 3/13/13, 2/2018, 2/2023

NEXT SCHEDULED REVIEW: odd-numbered years in February

APPROVED BY BOARD OF TRUSTEES: May 11, 2018

Policy for: Academic Affairs and Registrar's Office

Procedure for: Registrar's Office

Authorized by: Vice President for Academic Affairs

Issued by: Board of Trustees

I. Purpose

Mid-Atlantic Christian University participates in the advanced placement programs of the Educational Testing Service (ETS) by awarding academic credit to students who achieve acceptable scores on those examinations determined to have a MACU course equivalent. For students who excel in certain subject areas, college freshman level course work may be repetitious. Thus, in an effort to alleviate duplication at the university level, to promote academic motivation and to provide assistance toward educational goals; qualified students are encouraged to take advantage of credit-by-examination opportunities offered through Advanced Placement, College Level Examination Programs, and DANTES Subject Standardized Tests.

This policy statement partially addresses "Standard 10.8 Evaluating and awarding academic credit of the Southern Association of Colleges and Schools Commission on Colleges, *Principles of Accreditation* (2018 edition).

II. Policy

The University will award credit for up to 30 semester hours of College Level Examination Program (CLEP), Advanced Placement (AP), and DANTES (DSST) toward baccalaureate degrees and 15 semester hours toward an associate degree. Students with exceptional CLEP and/or AP scores may petition the Vice President for Academic Affairs to exceed the 30/15 hour limit.

III. Procedure

Upon receipt of official scores from the different testing agencies the Registrar's Office will review the scores and determine if credit may be awarded. Upon a favorable decision a summary sheet will be created and placed in the student's academic file, along with a copy being given to the student and the student's advisor.

Credit will also be entered into the Campus Management System where the student's official academic record is maintained in the form of a transcript.

The University will accept appropriate scores on approved examinations as follows:

A. Credit Awarded for CLEP Examinations:

1. Credit from the tests may be used to fulfill specific courses, as part of a distribution/area/general requirement, or as free electives (without further specification) in the student's degree program.
2. The student must test at the end of the semester before he enrolls in courses for which the CLEP test (or equivalent course) is a pre-requisite.
3. A grade of P (pass) will be assigned following the successful completion of CLEP tests and the hours will not be used to calculate the student's grade point average (GPA). The minimum accepted score for all examinations is generally 50, except as noted in the listing below.
4. CLEP based credits may not duplicate previous college work that has been successfully completed.
5. The student pays no transfer fee to the University for CLEP credits, but does pay applicable testing and grading fees.
6. Students wishing to test out of a course through CLEP must do so before the end of the first semester of their senior year.
7. CLEP credit will not be granted for previously failed courses.

B. CLEP Examinations accepted for specific courses. All others may be used for electives, where relevant to the student's program of study. [...] – Only receive credit if CLEP test was taken before enrollment at MACU.

C. Credit Awarded for AP Examinations:

The University will accept AP scores of 3, 4, and 5 as follows:

1. To be considered for credit, students must ask the appropriate testing service to send MACU official test results.
2. Scores may be accepted in fulfillment of specific courses, as part of a distribution/area/general requirement, or as free electives in the student's degree program.
3. The recommended number of semester hours will be awarded per accepted score if the student uses it as a free elective; if he uses it in lieu of a specific course, the student will be awarded no more than the hours of the Mid-Atlantic Christian University course. In no instance may credit hours for one examination be divided between a specific course and elective hours.
4. There are no additional requirements or fees for receiving credit.
5. A grade of P (pass) will be assigned and the hours will not be used to calculate the student's grade point average (GPA).
