

## Field Mentor Application

Thank you for your desire to partner with Mid-Atlantic Christian University in mentoring and training ordinary people to be extraordinary leaders. Internships and mentoring are two of the most effective ways to equip and prepare the next generation of Christian leaders who will impact the church and the world. We are grateful for your willingness to join us in this exciting opportunity.

The MACU Internship Program is designed to take place in an environment where students learn from someone who is currently working in the field the students seek to enter. We therefore seek to place students with mentors in the field where they will receive the best practical training and mentoring possible.

Before completing this application, please take time to read the document *Field Mentor Requirements and Responsibilities*. Then fully complete this application.

NOTE: If you are willing to host an intern in more than one area, for example preaching and youth, or youth and worship, each mentor must complete a separate application form. Preferably, all applicants must be full-time in the area in which they will be serving as a mentor.
